

Hard two-piece gelatin capsules
for liquid pharmaceutical applications

The best choice of hard capsule for very low viscosity liquid filling operations

Pharmaceutical Grade

Preservative Free
QUALICAPS® INNOVATION

100% Bovine Bone
PREMIUM

Minimal Leakage

Tamper Evident
**PATENTED BAND SEALING
TECHNOLOGY**

100% Automatic
Camera Inspection
QUALICAPS® INNOVATION

COMPOSITION

-  Gelatin
-  Water
-  Dyes

MAIN FEATURES

- Rapid dissolving, with constant solubility
- Specifically designed for low and very low viscosity liquids fills
- Quali-G™ Liquid capsules are available in different sizes depending on properties of the liquid ingredient:
 - › for high and medium viscosity: available in all sizes
 - › for low and very low viscosity: available in size 0
 - › for very high viscosity (semi-solid ingredients): available in all sizes
- Excellent performance on high-speed filling and sealing machines
- 5-year shelf life
- Qualicaps® also offers TiO₂-free Quali-G™ Liquid capsules upon request

MOISTURE CONTENT

EVOLUTION OF LEAKAGE COUNTERACTION PERFORMANCE

The preliminary tests carried out with the **least viscous (9cp) products** on the market have confirmed the **counteraction of leaks**, while extending the holding time of the liquid until **banding operations are performed**.

Notes:
Five different viscosity oils ranging from 9 to 69 cp have been tested.
Sample size: 1,000 capsules filled at 60% of body volume.
Tested performed before banding operations.
