

Quali-Seal Kits

Quali-Seal capsule banding technology leads the global pharmaceutical, nutrition and over-the-counter industries in capsule sealing

Using a capsule sealing machine, filled, two-piece capsules are sealed with a double band at the joined portion of the cap and body

Process results in a tamper-resistant product and enhances customer confidence

Kit provides everything needed to easily create a band-seal solution

Available in gelatin or HPMC

Can be colored to create differentiation and improve product recognition
